ABENA Climate Targets 2030

We want to decrease the CO₂ emission levels from our own production and office facilities.

We want 70% of our products to include at least 50% biobased or recycled raw materials by 2030.

We want to increase our number of ecolabeled products

Your Professional Partner in Sustainability

ABENA is your responsible and professional partner – also when it comes to sustainability. We have many years of experience within the field and together, we will find the right solutions that suit your needs.

ABENA Sustainable Development Goals 2030

We want to minimize our energy consumption, reduce CO₂ emissions, and change to renewable energy sources across our production and office facilities.

We want to increase our workforce and secure safe and equal working conditions for our own and our suppliers' employees.

We want to minimize our environmental impact and limit waste through a circular economy approach.

We want to preserve the variety of life on Earth and prevent extinction due to human activities.

Did you know?

ABENA is one of the original inventors of the intuitive color-coded packaging system for gloves. It makes it easier for employees to find the correct size right away.

Gloves for all Needs

– with full documentation

Gloves for demanding industries

At ABENA, we offer a wide assortment of certified gloves for manufacturers of meat and fish, as well as dairies and industrial bakeries. Our focus is quality - based on a strong sourcing setup as well as expertise within the industries. Therefore, we supply you with reliable, high-quality gloves.

The right label for your specific purpose

No matter your task, you are safe with us. Our selection covers a variety of gloves suitable for handling food, cleaning with or without chemicals, as well as working under hot or cold conditions.

Our product specialists are ready to guide you through everything from choosing the right product to EN-standards, audits, and self-assessments.

EN standards

EN standards are guidelines to ensure function, safety, and quality. Every EN standard covers a specific intended purpose for gloves and other personal protective equipment. Our gloves come with complete datasheets and comply with all relevant certifications. Let us take care of the technical details and documentation - so you can concentrate on your core business.

Multi-dispenser box

Item number	Color	Dimensions	Features	Pcs per cll / cll per pll
227499	White	27x23x34.5cm	For wall mounting	1 / 48

Easy and hygienic storage of many different products, such as clip caps, shoe covers, sleeve covers, or earplugs.

The dispenser is made of white acrylic with a clear front lid. Easily refilled by opening the top lid. The products are dispensed easily and hygienically via the front opening. Free-standing or wall-mounted.

Multi-dispenser, Pal Ecopak

Item number	Color	Dimensions	Pcs per cll / cll per pll
1999916545	White	49x19x-20cm	1 / 49

Light and hygienic wall-mounted dispenser. Designed for easy dispensing of many different disposable products, such as clip caps, shoe covers, sleeve covers or earplugs. Easily refilled by lifting the top lid. Reduces clutter in the work environment and enables staff to maintain hygiene standards, reducing the risk of cross-contamination. Supplied with color-coded magnets.

Did you know?

Our Evolve-range is made from recycled post-consumer PET. We want to minimize our environmental impact and limit waste through a circular economy approach.

Food Packaging

– solutions for your every need

ABENA is your reliable partner for food service solutions

At ABENA, we offer a complete assortment of safe packaging for manufacturers in the food industry such as abattoirs and professional kitchens. Our strong network of suppliers and sourcing offices allow us to supply with exceptional consistency. Therefore, we deliver to you at the right time, every time.

Our wide assortment provides products for attractive and hygienic presentation of foodstuffs. Among other things, our range covers aluminum trays, plastic and meat trays as well as cups and plastic solutions for serving. We also offer sealing machines and films.

With the goal of creating a sustainable society through sustainable consumerism, the Nordic Swan Ecolabel evaluates the environmental impact of products throughout their entire life cycle—from raw material selection, to the manufacturing process, straight through to the disposal of the product.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. For more information, go to www.fsc.org.

Plastic Trays & Lidding Film

Tray

Item number	Dimensions	Features	Color	Material	Pcs per cll / cll per pll
132915	22.7x17.8x-5cm	Standard range, main course	Black	CPET	360 / 16

Our C-PET products are the professional and practical solution for canteens, professional kitchens, and the catering and restaurant industry. These sturdy trays and storage solutions are suitable for all types of food, and are oven-safe with temperatures up to 220°C. You decide whether the lid should be sealing film or a stronger snap-on lid. The latter allows you to safely stack the trays. The width of the cover film depends on the type of machine. The products are made from a minimum of 70% recycled plastic, which can be recycled again through proper waste management.

1000013374	27.5x17.5x7.5cm		750 micron	Black	PP	160 / 18

Make sure your meat products are handled safely and hygienically. Our range of meat trays are robust and durable solutions. Approved for food and suitable for fresh or frozen meat. Come in different sizes and materials, all of which are frost-tolerant. PP is also a particularly strong and robust material that can be washed in industrial and ordinary dishwashers with washing cycles up to 100°C.

Tray

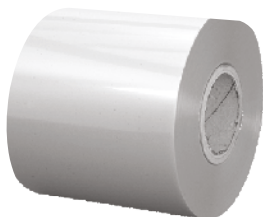

Item number	Dimensions	Features	Volume, gross	Color	Material	Pcs per cll / cll per pll
1000001604	32.5x26.5x4cm	1/2 GN	2500 ml	Black	PP	100 / 16
1000011296	 32.5x26.5x6.5cm	1/2 GN	4000 ml	Black	PP	96 / 12
1000001610	32.5x26.5x8cm	1/2 GN	5000 ml	Black	PP	96 / 12

Products made of sturdy, strong PP are suitable for all types of food. We recommend these trays for serving cold dishes, but they are also microwave-proof, presenting endless possibilities.

Lidding film

Item number	Dimensions	Features	Thickness	Color	Material	Roll per cll / cll per pll
134395	500m x 185mm	Peelable	25 micron	Clear	PET	1 / 144
134396	500m x 230mm	Peelable	40 micron	Clear	PET	1 / 60
134442	500m x 340mm	Peelable	40 micron	Clear	PET	1 / 48

Lidding film is a great accessory for your PET trays as it seals them easily and efficiently. This prevents foreign bodies getting in the food before it is eaten.

Plastic Trays & Lidding Film

Lidding film, Topaz

Item number	Dimensions	Features	Thickness	Color	Material	Roll per cll / cll per pll

Did you know?

ABENA offers industrial wiping cloths - the ideal hygienic alternative to traditional dishtowels - and a solution that helps reduce consumption and waste.

Paper & Dispenser Solutions

– for office and production facilities

Hygienic paper solutions - avoid the spread of airborne bacteria in your facility

Whether you focus on quality, price, or sustainability, our wide selection of paper and dispensers will provide the right solution for your need.

Our assortment covers a wide range from hand towels and hygienic paper to industrial rolls. We also provide non-woven wiping cloths that are especially suited for industrial purposes and a great alternative to traditional reusable cloths. The wiping cloths are versatile, as they are suitable for both food contact and cleaning electronic devices.

The right paper for your sustainability goals

- Choosing the right paper and dispenser can improve spillovers and costs.
- Different folds, qualities, and materials may have an impact on reducing paper usage.
- We offer a variety of dispensers made from recycled plastic.

For more information on our paper assortment, please contact your local ABENA sales representative.

The EU Ecolabel, also known as the EU Flower, is the official environmental label in Europe. Products with the EU Ecolabel meet stringent environmental requirements with regards to raw material, production, use, documentation and safety.

Industrial Rolls & Wiping Cloths

Industrial roll, ABENA Care-Ness Excellent

Item number	Color	Ingredients / Composition	Dimensions	Layer quantity	Sheet per roll / roll per cll
6189	White	100% Cel-lulose	380m x 26.5cm, Ø33cm	2 layers	1000 / 2

ABENA's Industrialroll is made from 100% cellulose to ensure maximum absorbency. The wiping tissue effectively absorbs both oil and water, and retains its strength even when wet. Our industrialroll is suitable for sites where premium quality tissue is needed for industrial wiping.

Industrial roll

Item number	Color	Dimensions	Material	Layer quantity	Sheet per roll / roll per cll
6191	Blue	345m x 35.7cm, Ø34cm	Paper	3 layers	1000 / 1

Our industrial roll is made from 100% cellulose for maximum absorbency. The high absorbency ensures efficient absorption of both oil and water. And the tissue also retains its strength even when wet. For premium quality industrial wipes, look no further than our industrial-grade roll.

Industrial wiping, ABENA

Item number	Color	Ingredients / Composition	Thickness	Dimensions	Layer quantity	Pcs per pk / pk per cll
1999910359	White	Nonwoven	75 g/m2	42x35cm	1 layer	80 / 5
1999912903	Blue		75 g/m2	42x38cm	1 layer	80 / 5

Incredibly absorbent and very strong cloth, even when wet, making it the ideal hygienic alternative to traditional dishtowels. Choosing this solution, helps you reduce consumption and thus waste. The packaging is designed with a smart and handy tear-off opening, making the box of cloths work as a dispenser all on its own.

Industrial wiping, ABENA

Item number	Color	Ingredients / Composition	Thickness	Dimensions	Layer quantity	Sheet per pcs / pcs per cll
1000007070	Blue	44% polyester, 56% paper	1x66 g/m2	30x16.5cm, Ø18cm	1 layer	200 / 3

Strong textile for wiping specially engineered for industrial applications. The disposable cloth is chemically resistant and among the strongest cloths on the market. It absorbs several times its own weight in water and can soak up both grease and solvents. The cloths leave behind minimal lint and are soft enough for polishing tasks. Free from pollutants and indirect food contact approved. The disposable cloth is ideal for the quality-conscious user who wants a top-class versatile wiping cloth for all types of wiping.

Industrial Rolls & Wiping Cloths

Industrial wiping

Item number	Color	Ingredients / Composition	Thickness	Dimensions	Layer quantity	Sheet per roll / roll per cll
1999914592	Blue	PET, viscose, cellulose	1x77 g/m2	152m x 30.5cm, Ø24cm	1 layer	400 / 1

Strong textile for industrial wiping applications. The hygienic alternative to traditional reusable cloths. Effectively removes oil, organic solvents, etc. The material can be wrung in water. The textile is also suitable for use on delicate surfaces such as glass and varnish. Additionally, it is perfect for wiping surfaces requiring a finishing treatment, as it does not deposit lint or scratch.

Hand Towels & Wiping Paper

Hand towel sheets, ABENA Care-Ness Excellent

Item number	Color	Ingredients / Composition	Dimensions	Layer quantity	Folding method	Sheet per pk / pk per cll
114122	White	100% Cellulose	32x21.5cm	2 layers	W-fold	125 / 25

This multifold hand towel sheet is the hygienic alternative to fabric towels and hot air dryers. The paper is made from 100% cellulose, which combined with the smooth surface and the paper's embossing, provide maximum absorbency, while reducing consumption. The sheets are folded with one-sheet-at-a-time function, which both reduces consumption and improves hygiene.

Hand towel

Item number	Color	Ingredients / Composition	Dimensions	Layer quantity	Folding method	Sheet per pk / pk per cll
114116	White	100% Cellulose	24x20.3cm	2 layers	Z-fold	160 / 25
114119	  White	100% Cellulose	24x23cm	2 layers	Z-fold	160 / 25
114123	White	100% Cellulose	24x23.5cm	3 layers	Z-fold	125 / 25

Our hand towel is the hygienic alternative to fabric towels and hot air dryers. The paper hand towels are made from 100% cellulose, which combined with the smooth surface and unique embossing provide maximum absorbency and help reduce consumption. The sheets are folded with a smart one-sheet-at-a-time function, that both reduces consumption and improves hygiene, as the user only touches the paper towel needed, thus avoiding the spread of bacteria.

Our hand towel is the hygienic alternative to fabric towels and hot air dryers. The paper hand towels are made from 100% cellulose, which combined with the smooth surface and unique embossing provide maximum absorbency and help reduce consumption. The sheets are folded with a smart one-sheet-at-a-time function, that both reduces consumption and improves hygiene, as the user only touches the paper towel needed, thus avoiding the spread of bacteria.

hand towel sheets, ABENA Care-Ness Excellent Plus

Item number	Color	Ingredients / Composition	Dimensions	Layer quantity	Folding method	Sheet per pk / pk per cll
114020	White	100% Cellulose	32x20.3cm	2 layers	W-fold	100 / 20

Hand Towel sheets in the ABENA Care-Ness Excellent Plus range are manufactured using TAD (Through-Air Drying) tissue-making technology. This gives the tissue superior absorbency and softness compared to traditional wiping paper. Hand towel sheets are also a hygienic alternative to fabric towels. Our wiping tissue is made of tissue with superior strength. This tissue is made from 100% cellulose, which, combined with the smooth surface and professional embossing, ensures maximum absorbency, which, in turn, reduces consumption. The sheets are folded for smart one-at-a-time dispensing, which has the dual advantage of reducing consumption and improving hygiene.

This hand towel roll is suitable for wiping up spilled liquids on surfaces. The product is made from recycled fibers and meets basic surface wiping needs.

Hand Towels & Wiping Paper

Hand towel roll, ABENA Care-Ness Excellent Eco

Item number	Color	Ingredients / Composition	Dimensions	Layer quantity	Roll per cll / cll per pll
1999905913	White	100% Cellulose	213m x 20.3cm, Ø19.5cm	1 layer	6 / 32

ABENA Care-Ness Excellent Eco is a series of sustainable paper products produced 100% CO2 neutrally, but still in the same high quality as the other products in the Excellent series. The product is produced CO2 neutrally according to ISO standard 14067. This towel roll is also the hygienic alternative to fabric towels and fan heaters. The product is made from 100% Cellulose, which combines with the smooth surface and unique embossing to provide maximum absorbency and reduce consumption. The sheets are folded with one-sheet-at-a-time function, which both reduces consumption and improves hygiene. FSC™ (Forest Stewardship Council) and EU Ecolabel certified.

Hand towel roll, ABENA Care-Ness Excellent

Item number	Color	Ingredients / Composition	Dimensions	Layer quantity	Pcs per cll / cll per pll
6135	White	100% Cellulose	100m x 20.3cm, Ø19cm	3 layers	6 / 32

This hand towel roll is the hygienic alternative to fabric towels and hot air dryers. This product is made from 100% Cellulose, which combines with the smooth surface and unique embossing to provide maximum absorbency and reduce consumption. The sheets are folded with one-sheet-at-a-time function, which both reduces consumption and improves hygiene. Furthermore, the 3 layers ensure a feeling of optimal softness and comfort.

Special Wiping

Facial tissues, ABENA Care-Ness Excellent

Care-Ness 

Item number	Color	Ingredients / Composition	Dimensions	Layer quantity	Sheet per pk / pk per cll
6210	White	100% Cellulose	20x19.5cm	2 layers	100 / 40

ABENA's facial wipes are a good choice for anyone looking to pamper their facial skin with the softest and most exquisite quality materials. The wipes come in a practical container with a one-at-a-time function to avoid spilling. The wipe container has a nice, decorative design and does not require a dispenser.

Towel, Airlaid, ABENA

Item number	Dimensions	Material	Layer quantity	Folding method	Pcs per cll / cll per pll
246010	60x27cm	Airlaid		3-fold	344 / 16
246011	140x80cm	Airlaid	1 layer	Z-fold	36 / 18

ABENA's Airlaid Paper Towel is particularly soft and gentle on the skin and therefore an obvious solution for drying your whole body. The air-treated material makes the disposable towel extra soft and absorbent - up to six times its own weight. Although it is made of paper material, the towel has very good strength and is of good quality, which far surpasses ordinary paper. The soft material also results in less friction, which makes it ideal for delicate and extra sensitive skin.

Toilet Paper & Kitchen Rolls

Jumbo roll, ABENA Care-Ness Excellent

Item number	Color	Ingredients / Composition	Size	Dimensions	Layer quantity	Sheet per roll / roll per cll
6052	White	100% Cellulose	Midi	380m x 9cm, Ø26cm	2 layers	2000 / 6

The Sækko-Boy waste stand is known for its sturdiness, simplicity and extended durability. The waste stand features an integrated sack holder and wheels. To enable waste separation into 2 fractions, you can now mount 1 bag to each of the stand's 2 sack holders, by purchasing the new slimline Sækko-Boy bags available in a choice of 8 colors. By using these colored bags in the waste stand, you can color-code for the type of waste to be sorted in the bags.

Waste bin for Sækko-Boy waste stand

sækko.Boy

Item number	Color	Volume, gross	Features	Material	Dimensions	Pcs per cll / cll per pll
1999913660	Black	10,2 l	16,4*32*32,8 cm	PP, recycled plastic	16x32.8x-32cm	10 / 12

If sorting waste is a priority for you, but it still must be easy and clear, you will find the new waste bin for the Sækko-Boy stand an excellent, efficient solution. With a capacity of 10.2 liters and extra waste fractions, it makes waste management that much easier. The bin can be attached to the 2 sides of the stand, and it is easy to lift off the stand, empty, and wash it. You can buy additional lids in the colors black, blue and green, which further helps you make sorting at source fast and clear on the go. The lids are easy to fit and can be opened in two ways. You need to buy the brackets for the bins separately. You can also place the waste bins in the stand's two sack holders. This allows you to have one or two bins placed inside the stand itself. However, this does not apply to the 120 l Sækko-Boy stand. This upgrade of the Sækko-Boy stand allows you to adapt it to your specific wishes and needs in terms of sorting waste. In other words, you don't need to replace the entire stand, but can simply add products. Among the various options available, you can, for example, choose to use our new waste sacks that are adapted so that two sacks can be hung in the stand's sack holders. Otherwise, you can choose to have a waste sack and a waste bin hanging inside the stand combined with two waste bins hanging on the opposite sides of the stand.

Bracket for Sækko-Boy waste bin, Sækko-Boy

sækko.Boy

Item number	Color	Material	Pcs per cll
1999913661	White	Powder coated steel	100

These simple but ingenious brackets make it possible to expand the traditional Sækko-Boy stand by adding waste bins on the 2 sides of the stand, so that two extra fractions are added to sort waste into - quickly and efficiently! The bracket can be mounted easily and quickly on both sides of the stand. First remove the sack holders, then place the bracket on the cross piece between the 2 arms, and finally put the sack holders back on through the bracket's 2 holes. This upgrade of the Sækko-Boy stand allows you to adapt it to your specific wishes and needs in terms of sorting waste. In other words, you don't need to replace the entire stand, but can simply add products. Among the various options available, you can, for example, choose to use our new waste sacks that are adapted so that two sacks can be hung in the stand's sack holders. Otherwise, you can choose to have a waste sack and a waste bin hanging inside the stand combined with two waste bins hanging on the opposite sides of the stand.

Sækko-Boy Stands & Sacks

Lid for Sækko-Boy waste stand, Sækko-Boy

sækko.Boy

Item number	Color	Material	Dimensions	Pcs per cll
1999913662	Blue	Recycled plastic	14.5x32.5x-1cm	40
1999913663	Green	Recycled plastic	14.5x32.5x-1cm	40
1999913664	Black	Recycled plastic	14.5x32.5x-1cm	40

The lids for the practical Sækko-Boy waste stand are available in the colors black, blue, and green. The colors make it easy and clear to sort the waste at source correctly on the go. The lids are easy to mount and can be opened in two ways. If the bin is placed on the right side of the stand, however, the lid can only remain permanently open if the lid is placed on the right side of the bin. This upgrade of the Sækko-Boy stand allows you to adapt it to your specific wishes and needs in terms of sorting waste. In other words, you don't need to replace the entire stand, but can simply add products. Among the various options available, you can, for example, choose to use our new waste sacks that are adapted so that two sacks can be hung in the stand's sack holders. Otherwise, you can choose to have a waste sack and a waste bin hanging inside the stand combined with two waste bins hanging on the opposite sides of the stand.

With this slimline variant of the well-known Sækko-Boy bags, you have the option of fitting two bags to the same stand. This is done by fitting one bag to each of the stand's twin bag holders. This allows you to sort waste in more fractions in the Sækko-Boy stand without having to invest in new stands and waste management solutions. The bag comes in eight selected colors to facilitate user identification of which bag to use for sorting waste types. The waste bags are also available in sizes to match both the 40 l and 60 l Sækko-Boy stands. The bags are made from recycled plastic to minimize their environmental impact. They are suitable for collecting mixed waste. NOTE: This solution is only possible with the new versions of the Sækko-Boy stands, which have integrated removable bag holders.

The bags come in eight selected colors to facilitate user identification of which bag to use for sorting waste types. The waste bags are also available in sizes to match both the 40 l and 60 l Sækko-Boy stands. The bags are made from recycled plastic to minimize their environmental impact. They are suitable for collecting mixed waste. NOTE: This solution is only possible with the new versions of the Sækko-Boy stands, which have integrated removable bag holders.

Sækko-Boy Stands & Sacks

Sækko-Boy sack

Item number	Features	Volume, net	Thickness	Waste type	Color	Pcs per roll / roll per cll
1281	55x103cm	60 l	60 micron	Heavy	Grey	10 / 15
1282	55x103cm	60 l	60 micron	Heavy	White	10 / 15
1278	55x103cm	60 l	60 micron	Heavy	Red	10 / 15

Sack, ABENA Poly-Line Supersæk ULTRA

poly.Line 

Item number	Features	Volume, net	Thickness	Waste type	Color	Pcs per roll / roll per cll
103147	70x110cm	100 l	19 micron	Medium	Black	20 / 25

The special production method for the Supersæk ULTRA, combined with very strong material, allows up to a 60% reduction in thickness without compromising on quality and strength. The Supersæk ULTRA is therefore also particularly environmentally friendly. An extra strong double bottom sealing protects against leakage. The sack is 100% odorless and suitable for collecting mixed waste.

Waste Bins

Pedal bin, Carro-Line Mobile Carro-Kick

ABENA Puri-Line has more than 100 ecolabeled products. We strive to have 70% ecolabeled products by 2030.

Cleaning Tools & Detergents

– well-documented and ecolabeled cleaning

Achieve effective cleaning and hygiene while reducing physical strain.

At ABENA, we specialize in cleaning solutions - and we are ready to assist you in finding the proper method and the most suitable cleaning agents to solve your tasks.

ABENA Puri-Line - a complete range of ecolabeled cleaning solutions

Our own Puri-Line is an assortment of detergents, mops, and cloths that ensure you an ecolabeled cleaning solution of the highest quality and with a focus on ergonomics.

All cleaning detergents in the Puri-Line series carry the Nordic Swan Ecolabel. To obtain this certification, all products have complied with a number of strict requirements, such as:

- Biodegradability
- Product quality and durability
- Compliance with criteria for chemicals
- Information on correct dosing and use
- Requirements regarding packaging and transport of goods

This is your guarantee that the products contain no harmful ingredients.

The Asthma Allergy Nordic offers certification to products that pose the smallest possible risk of causing allergy. The main goal is to make it easier for those with contact allergies to find products that make everyday life better.

Brushes & Brooms

Brush, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
970302	Blue	Medium hard bristles	26x4x7cm	PP, polyester, stainless steel	20 / 104

Lightweight hand brush with ergonomically angled handle and polyester filaments. Practical all-purpose brush. Handles everything, from washing dishes and pots to cleaning machines and equipment.

Detail brush, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
168247	Blue	Very stiff bristles	20.5cm	Polyester, PP	10 / 120

Small, compact hand brush, suitable for cleaning around gaskets, rubber moldings, and joints on machines and equipment, such as conveyor belts.

Dishwashing brush, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
970902	Blue	Medium bristles, scraping edge	28x6x5.5cm	Polyester, PP, stainless steel	20 / 24

Solid dish brush with scraping edge that can scrape the more stubborn dirt stains. Suitable for washing dishes and cleaning machines and equipment.

Brush, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll
1000008111	Blue	Stiff bristles, UST	26x7x10cm	Glass, polyester, PP	10

UST brush with short handle and easy-to-clean bristle units that ensure maximum hygiene. The ultra-secure attachment of the bristles in the bristle unit makes the brush suitable for cleaning conveyor belts, production equipment, and surfaces in the high-risk areas of the food industry. The position of the bristles on the brush makes cleaning more effective.

Brushes & Brooms

Brush, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll
1000008269	Blue	Stiff bristles, UST	39.5x7x-14cm	Glass, polyester, PP	10

UST brush with long handle and easy-to-clean bristle units that ensure maximum hygiene. The long shaft and the ultra-secure attachment of the bristles in the bristle unit make the brush suitable for cleaning machines, deep containers and other hard-to-reach places in high-risk areas. The position of the bristles on the brush makes cleaning more effective.

Hand broom, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
1000011593	Blue	Soft bristles, UST	33x3.5x13.5cm	Glass, polyester, PP	10 / 104

UST brush with easy-to-clean bristle units that ensure maximum hygiene. The ultra-secure attachment of the bristles in the bristle unit makes the brush suitable for removing fine particles, such as flour from conveyor belts, tables, and equipment in the high-risk areas of the food industry. The position of the bristles increases cleaning efficiency when sweeping fine, dry particles.

Hand broom, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll
1000013339	Blue	Medium hard bristles, UST	33x3.5x13.5cm	Glass, polyester, PP	10

UST brush with easy-to-clean bristle units that ensure maximum hygiene. The ultra-secure attachment of the bristles in the bristle unit makes the brush suitable for removing fine particles, such as flour from conveyor belts, tables, and equipment in the high-risk areas of the food industry. The bristles enable effective sweeping of both dry and wet particles.

Detail brush, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll
1000013367	Blue	Soft bristles, UST	20.5x3x-1cm	Polyester, PP	10

The UST Detail Brush is designed for detail cleaning in dry environments where soft bristles are useful and hygiene is critical, such as when allergens are a risk. Also useful as a pastry or glazing brush in food handling applications, this brush delivers all the advanced benefits of Vikan's other Ultra Safe Technology (UST) cleaning tools.

Brushes & Brooms

Brush, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
169414	Blue	Stiff bristles	11x11x-11cm	Polyester, PP, stainless steel	15 / 64

An effective scrubbing brush with an ergonomic grip that is gentle on the wrist. As the brush is very hard, it effectively removes stubborn dirt. Particularly suitable for cleaning buckets and smaller containers.

Tank brush, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
985701	Blue	Stiff bristles	20.5x13x-10cm	Polyester, PP, stainless steel	10 / 30

Tank brush for cleaning tanks or containers in the food industry. Can be used for color management to avoid cross-contamination.

Hi-low brush, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
169217	Blue	26.5, medium hard bristles	26.5x15x-10cm	PP, polyester, stainless steel	10 / 15

The angled design of the brush makes it suitable for cleaning areas where the floor and wall meet, as well as under tables and machines. The angle of the thread allows the mounted shaft to be moved parallel to the floor so that it is possible to clean under fixtures and fittings.

Sweeping broom, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
169443	Blue	Soft bristles	6.5x41x-13cm	Polyester, PP, stainless steel	10 / 42

The broom is particularly suitable for medium-fine particles and is, therefore, an ideal solution for restaurants, canteens, kitchens and entrance areas, etc. The broom should only be used on dry areas.

Brushes & Brooms

Crevice scrub, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
1000002432	Blue	Very stiff bristles	22.5x3.5x-9cm	Polyester, PP, stainless steel	10 / 110

Since the shaft can be positioned almost parallel with the floor, this crevice scrub is particularly useful for cleaning hard-to-reach areas under and between equipment. The bristles are in an arrow shape, ensuring highly effective cleaning in even small cracks. The middle bristles are more powerful than the outer ones, making this a particularly stiff brush.

Deck scrub with water flow, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
971302	Blue	Very stiff bristles	27x7.5x9.5cm	Polyester, PP, stainless steel	10 / 40

Very stiff deck scrub with water through-flow to remove stubborn dirt and clean crevices that are not too deep.

Floor-scrubbing broom, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
1000008106	Blue	Stiff bristles, UST	5x40x7.5cm	Glass, polyester, PP	10 / 40

UST floor-scrubbing broom with easy-to-clean bristle units that ensure maximum hygiene. The ultra-secure attachment of the bristles in the bristle unit makes the floor-scrubbing broom suitable for use on tiled floors in high-risk areas in abattoirs and meat-processing plants. The position of the bristles on the brush enables effective removal of stuck-on dirt when scrubbing.

Sweeping broom, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll
1000008110	Blue	Medium hard bristles, UST	5x40x9.5cm	Glass, polyester, PP	10

UST broom with easy-to-clean bristle units that ensure maximum hygiene. The broom is effective for sweeping floors in both dry and wet areas. The ultra-secure attachment of the bristles in the bristle unit makes the broom suitable for cleaning in the high-risk areas of the food industry. The position of the bristles on the brush makes cleaning more effective.

Brushes & Brooms

Sweeping broom, Vikan

Item number	Color	Features	Dimensions	Material	Pcs
1000012167	Blue	Soft bristles, UST	5x40x9.5cm	Glass, polyester, PP	1

UST broom with easy-to-clean bristle units that ensure maximum hygiene. The soft broom is effective for sweeping floors in dry areas. The ultra-secure attachment of the bristles in the bristle unit makes the brush suitable for cleaning in the high-risk areas of the food industry. The position of the bristles on the brush makes cleaning more effective.

Pipe cleaner, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll
167129	Blue	Stiff bristles	50cm, Ø1cm	Polyester, PP, stainless steel	15

Pipe cleaner particularly useful for cleaning pipes and other hard-to-reach places in equipment and machinery.

Dustpan, Vikan

Item number	Color	Dimensions	Material	Pcs per cll / cll per pll
985901	Blue	29.5x33x10cm	PP	10 / 40

A solid, wide dustpan that picks up dirt close to the ground. Can also be used as a hand shovel, if appropriate.

Squeegees

Hand squeegee, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / ccl per pll
165250	Blue	Ultra hygienic	24.5x5x10.4cm	PP, TPE	20 / 80

Ultra-hygienic single-blade squeegee with a mini handle. The soft flexible blade cleans tables and other surfaces effectively, leaving them clean and dry.

Hand squeegee, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / ccl per pll
169774	Blue	With replacement cartridge	25x7x9.5cm	PP, rubber	20 / 48

A handy squeegee for use where other squeegees are too big. For example, to remove water from table surfaces.

Floor squeegee, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / ccl per pll
169796	Blue	Ultra hygienic	40x8cm	PP, TPE rubber	15 / 42

This ultra-hygienic squeegee has a soft, flexible scraper blade that ensures effective removal of fluids from floors and other surfaces. The rubber lip is angled for easy cleaning close to walls and around equipment. The splatter edge of the squeegee ensures that the liquid does not spray onto the wiped surface.

Floor squeegee, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / ccl per pll
169841	Blue	With replacement cartridge	40.5x7x10.5cm	PP, TPE rubber	10 / 18

Floor squeegee that is just as effective as the traditional squeegee but with greater hygiene. Suitable for removing water from floors. Cartridge is also color-coded and replaceable.

Squeegees

Floor squeegee, Vikan

Item number	Color	Dimensions	Material	Pcs per cll / ccl per pll
169160	Blue	40x11x7.5cm	Cellular rubber, PP	10 / 32

Squeegee with double-lipped cellular rubber cassette and swivel joint. Ensures fast and efficient cleaning, even in difficult-to-reach places. The swivel joint makes the squeegee suitable for removing water, etc. around tables and other equipment. Quick to use. Easy and hygienic replacement of the cassette without the use of tools. Can be used for color management to avoid cross-contamination.

Handles & Feeders

Handle for scouring pad, Vikan

Item number	Color	Dimensions	Material	Pcs per cll / ccl per pll
169331	Blue	23.5x10x8cm	PP	10 / 72

Handle for cleaning pad with locking system that holds the cleaning pad in place. Attach a cleaning pad to the holder, to clean both walls and floors.

Feeder for scouring fibers, Vikan

Item number	Color	Dimensions	Material	Pcs per cll / ccl per pll
7540	Blue	23x10x7.5cm	PP	10 / 96

With locking system that holds the cleaning pad in place. Attach a cleaning pad to the holder, to clean both walls and floors.

Feeder for Velcro mops, Vikan Komposit

Item number	Color	Features	Dimensions	Material	Pcs per cll / ccl per pll
9840	Grey	25 cm	24x8.8x4.7cm	PS	10 / 132

Vikan's flexible mop frame is designed for use in combination with our ergonomic handles for cleaning items such as floors, walls, ceilings, tables, and other flat and curved surfaces like swing doors, bathtubs, hot tubs, curved plastic seats, and car windows. The mop frame fits all 25–30 cm velcro mops and click-fit handles.

Feeder for Velcro mops, Vikan Komposit

Item number	Color	Features	Dimensions	Material	Pcs per cll / ccl per pll
9841	Grey	40 cm	40.5x8.8x4.7cm	PS	10 / 60

Vikan's flexible mop frame is designed for use in combination with our ergonomic handles for cleaning items such as floors, walls, ceilings, tables, and other flat and curved surfaces like swing doors, bathtubs, hot tubs, curved plastic seats, and car windows. The mop frame fits all 25–30 cm velcro mops and click-fit handles.

Handles & Feeders

Feeder for Velcro mops, Vikan Komposit

Item number	Color	Features	Dimensions	Material	Pcs per cll / cpl per pll
9842	Grey	55 cm	57x8.8x4.7cm	PS	10 / 60

Mop frame used for cleaning floors, walls, ceilings, boards, and tables. With unique flexible rotary joint that allows cleaning in all positions. Rotary joint is easily locked into multiple positions if you want to work in a straight line, for instance when cleaning ceilings and long corridors. The angle increases the capacity/range per mop. The Velcro straps are easily interchangeable, as the brackets can easily be removed.

Handle with thread, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll
165249	Blue	Ultra hygienic	150cm, Ø3.2cm	Glass, PP	10
167121	Blue	Ultra hygienic	170cm, Ø3.2cm	Glass, PP	10

The shaft diameter provides a comfortable grip surface during use. The polypropylene material properties ensure the shaft is comfortable during use – even in cold rooms such as cold stores and production areas. The shaft is 6% lighter than comparable fiberglass shafts and has good chemical resistance. The hygienic design reduces the risk of bacteria entering the surface as well as between any collected matter.

Handle with thread, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll
1999903548	Blue	Ultra hygienic	65cm, Ø3.2cm	Glass, PP	10

Reduce the risk of cross contamination with a lightweight, sturdy Ultra Hygienic Handle that is free of crevices where bacteria can hide. Designed with vertical ridges and a matt finish that ensures an improved grip – even with greasy hands.

Handle with thread, Vikan

Item number	Color	Dimensions	Material	Pcs per cll / cpl per pll
975602	Blue	151cm, Ø3.1cm	Aluminum, PP	10 / 40

An aluminum handle with an ergonomically correct, comfortable grip surface and a rounded top with hanging hole. The shaft is equipped with an insulating 'plastic cover', which makes the shaft suitable for use in cold areas.

Handles & Feeders

Telescopic handle with click, Vikan

Item number	Color	Features	Material	Pcs per cll / ccl per pll
160360	Grey	115–173 cm	Aluminum, pp	6 / 42

Ergonomic telescopic handle developed in collaboration with specialists in the ergonomic field. The easy and quick top adjustment ensures efficient cleaning under chairs and tables as well as other areas that are difficult to access. The handle's swift adjustment options increase efficiency and reduce workload significantly. Can be used with mop frames, brooms, brushes, and other tools with click function.

Mops, Scoureres & Cloths

Dry, damp, and wet mop, ABENA Puri-Line Micro Complete

Item number	Color	Features	Material	Ingredients / Composition	Pcs per pk / pk per cll
1000011290	Grey	60 cm, with Velcro	Microfibre	55% microfiber, 45% polyester	5 / 10

Nordic Swan Ecolabeled microfiber mop with a documented 99.9% bacterial collection rate. See test report under data sheets – other product information. Densely woven yarn mop with cut edge fringes for collecting dirt along edges and around table and chair legs. The dense weave of the yarn makes the mop the obvious choice for high-friction flooring. The mop is particularly effective on laminate, varnished wood, linoleum, tile, epoxy and rubber floors. The mop is resistant to chlorine, spirits and disinfectants.

Damp mop, ABENA Puri-Line Micro Brush

Item number	Color	Features	Material	Ingredients / Composition	Pcs per pk / pk per cll
1000010591	Grey	30 cm, with Velcro	Microfibre	100% chenille microfiber	5 / 10
1000010632	Grey	40 cm, with Velcro	Microfibre	100% chenille microfiber	5 / 10

Nordic Swan Ecolabeled microfiber mop with a documented 99.9% bacterial collection rate. See test report under data sheets – other product information. Microfiber mop with high-performance chenille fiber to lift stubborn grime, especially on hard floors and non-slip surfaces, while the pile in the mop traps the dirt particles. The new chenille is definitively the most powerful cleaning fiber on the market thanks to its new improved pile structure. Unbeatable performance for challenging flooring substrates like rubber, tile and non-slip, and the best choice for periodic and heavy-duty pre-cleaning. The mop is resistant to chlorine, spirits and disinfectants.

Single-use mop

Item number	Color	Features	Material	Ingredients / Composition	Single or multiple use	Pcs per pk / pk per cll
1000012348	White	Easy, 40 cm	Microfibre	100% polyester	Single use	50 / 6

High-performance mop with good reach and a practical, disposable use, which helps to prevent cross-contamination in critical, sanitary areas. The mop can be used wet or dry and is particularly well-suited in areas requiring a high degree of sanitization and where washing of traditional mops is not an option. The mop is easy to work with and its unique quality and composition provide just the right amount of friction.

Scourer

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
168054	White	Good abrasive effect, scratch-free	25x12x2.5cm	Polyester, nylon	12 / 80

Extra gentle, scratch-free scouring pad used for scouring floors and other hard surfaces, as well as for removing limescale on tiles. Flexible and able to fit into all kinds of corners that machines cannot reach, it is perfect for use on large surfaces alongside machines.

With our Kleen-Komfort mat, you get a great, durable rubber mat with a soft center that provides excellent relief for your muscles and joints at the same time. The mat is manufactured with a low profile edge, making the transition to and from the floor smaller.

Hand shovel, Vikan

Item number	Color	Volume, net	Dimensions	Material	Pcs per cll / cll per pll
1999901022	Blue	2 l	27x15x14.5cm	PP	10 / 40

Scoop up any dry or moist food ingredients with Vikan's ergonomically designed hand scoop. The perfectly balanced grip protects against strains, while a flat bottom keeps the scoop from rolling over on tables.

Bucket for food, Vikan

Item number	Color	Features	Volume, net	Dimensions	Material	Pcs per cll / cll per pll
169760	Blue	With pouring spout	12 l	31.8x32.5cm	PP, stainless steel	6 / 20

This robust 12-liter bucket can be used both for cleaning and food storage. The bucket has a wide, drip-free pouring spout, a solid stainless steel handle, a raised base, and an internal measuring scale with different measuring units. The flat side prevents spillage.

Detergents & Accessories

Lid for bucket for food, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll / cll per pll
7572	Blue	For 12 l bucket	31x37.3cm	PP	20 / 30

The lid ensures that no foreign objects enter the bucket if it is used for storing food, etc. Uses a clip system to lightly secure the lid.

Measuring jug, Vikan

Item number	Color	Features	Volume, net	Material	Pcs per cll
1999901311	Blue	With open handle	2 l	PP	10

Fill, measure and pour more accurately with this cleverly designed jug. Easy-to-read transparent scales on each side let you choose your unit of measurement (millilitres, UK fluid ounces and US fluid ounces), the elongated spout and optimised handle ensure easy, precise pouring, and the wide bottom ensures stability and hygienic cleaning.

Wall mounting for tools, Vikan

Item number	Color	Features	Dimensions	Material	Pcs per cll
1999904550	Blue	5 tools	42x8.7x4.8cm	PP, TPE	5

Hygienic and flexible wall suspension system with 3 holders and 2 hooks, which can be assembled according to the Lego principle. Suspension of cleaning tools ensures a higher level of hygiene and prolongs the life of the tools. The wall mount is color-coded and can be extended by placing several next to each other. Rubber clips and hooks can be attached as needed. The suspension can hold 5 products.

Did you know?

ABENA offers everything needed for toilets, washrooms, and hygiene stations- from soaps to creams and disinfection.

Skincare & Hygiene

– for a hygienic and safe facility

Protect, clean, disinfect, and restore

Hands that regularly come into contact with dust, water, or chemicals are more prone to dryness and sensitivity. Dry and chapped skin poses a risk as it is more susceptible to small cuts and wounds that allow bacteria to get in.

Create a safe work environment

ABENA offers a skin care range developed by experts to ensure that the skin is given what it needs and no more, no less. The assortment covers soaps, creams, lotions, and ointments along with disinfection.

All products go through thorough testing and unrelenting quality control, including dermatological testing. Providing the gentle care that helps the skin recover and remain healthy.

Tips for choosing hygiene and care products to be used before, during, and after work:

Before work

protect

- Offer protective creams that match the daily routines and working conditions.

During work

wash, clean, disinfect, and protect

- Offer a soap or cleaner that cleans effectively and gently.
- Provide a gentle disinfectant.
- Choose dermatologically tested products to avoid skin problems and dehydration.
- Protective cream should be re-applied during breaks.

After work

restore

- Care products to avoid leaving the skin dry, rough, and cracked can help reduce the risk of work-related skin problems.
- Always provide a restorative cream that helps the skin regain strength and health.

Hand Soaps & Disinfection

Hand soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / cll per pll
1999900609	No colorant or perfume	1000 ml	4,5	6 / 60

ABENA's Hand Soap is the safe choice for daily hand washing. The soap has been specially developed for frequent hand washing and is suitable for all skin types. It has a creamy consistency and a skin-friendly pH value, which helps ensure that your skin does not dry out. The soap's mild formula, which does not contain neither colorants nor perfume, has both a nourishing and moisturizing effect on the skin, ensuring clean and soft hands. ABENA's Hand Soap is gentle on your skin, but effective against bacteria and dirt.

Hand soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / cll per pll
150688	No colorant or perfume, refill	800 ml	4-5	6 / 84

ABENA's Hand Soap is a safe choice and the ideal solution for daily hand washing - not least for people with delicate and sensitive skin. The soap's pH value is adjusted so that it matches your skin's own pH, and so it does not contain neither colorants nor fragrance. This means that the soap can be used widely and as often as necessary, as it does not dry out and damage the skin. ABENA's Hand Soap is gentle on your skin, but effective against dirt and bacteria.

Mild Cream Soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / cll per pll
7766	No colorant or perfume	500 ml	4-5	500 / 6 ml per pcs / pcs per cll
1000002557	No colorant or perfume	600 ml	4-5	8 / 95 pcs per cll / cll per pll
1999903971	No colorant or perfume	1000 ml	4-5	6 / 95 pcs per cll / cll per pll

ABENA's Mild Cream Soap is the safe choice for daily hand washing. The soap has a creamy consistency and has been developed specially for frequent hand washing. The soap's pH value is adapted to that of your own skin, which means that your skin is not dehydrated by the soap, even when you wash your hands often. The mild formula, which does not contain any colorant or fragrance, nourishes and moisturizes the skin, and ensures clean, soft hands. It is the ideal solution for all skin types - including extra delicate and sensitive skin. ABENA's Cream Soap is gentle on your skin, but effective against dirt and bacteria.

Hand Disinfectant Gel, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / cll per pll
1999904101	Refill, pouch for dispenser	1000 ml	PH 6-7	6 / 95

Our hands are the main source of infection. Frequent hand disinfection is a way to prevent the spread of infection when there is a risk of transferring bacteria and viruses. ABENA hand disinfectant products contain 85% alcohol and glycerin, which have a documented lethal effect and prevent the spread of infection.

Hand Soaps & Disinfection

Liquid hand soap, ABENA

Item number	Features	Volume, net	pH value (conc.)	MI per pcs / pcs per cll
6661	With perfume	500 ml	4-5	500 / 6

ABENA's Liquid Soap is particularly suitable for frequent hand washing. Its nourishing and moisturizing properties, and a skin-friendly pH value guarantee clean and soft hands. The hand soap contains no colorants and has a light, mild scent. The soap is gentle on your skin, but effective against dirt and bacteria.

Dispensers

Dispenser, Classic Recycled

Item number	Color	Dimensions	Material	Features	Pcs per cll / ccl per pll
1999902776	White	11.2x10x27.5cm	Plastic	For refills of liquid soaps and disinfection	1 / 260
1999902655	Black	11.2x10x27.5cm	Plastic	For refills of liquid soaps and disinfection	1 / 260

The dispenser is made of 100% recycled plastic, and has a strong and long-lasting quality. Stylish design with smooth edges for an inviting experience. The dispenser is designed so that service staff can easily keep an eye on how much has been used without opening it. This dispenser is also for refills of liquid soaps and disinfection.

Dispenser, ABENA Modular

Item number	Volume, net	Color	Pcs per cll
150830	800 ml	White	1

Manual dispenser that can be used for hand soap, liquid hand disinfection and gel. It has a blue sight glass, which makes it best suited for soap - we recommend a red sight glass for disinfection. The dispenser has a surface that makes it easy to clean. Sight glass ensures that it is easy to see when it is time for replacement. The refills are easy to install.

Dispenser, ABENA

Item number	Features	Volume, net	Material	Pcs per cll / ccl per pll
6995	With 10 cm arm, ready for fitting	1000 ml	Steel	60 / 16

Developed specifically to meet the stringent hygiene requirements in hospitals, in the care and food sector, and so on. Can easily be removed from the wall.

Surface Disinfection

Abena Surface Disinfection 70%, ABENA

Item number	Features	Dimensions	pH value (conc.)	Pcs per pk / pk per cll
150180	Dispenser box with 150 wipes	20x20cm	6,5-7,5	150 / 6

Abena Surface Disinfection 70%, for disinfection of surface within food production and food handling where surfaces come in direct contact with food. The product is approved by the Danish Veterinary and Food Administration Journal number: 2013-29-5409-00352 after use, no rinse with water. Can also be Used on all surfaces where very high hygiene is desired. Contact time 1 minut.

Wet Wipe Ethanol Disinfection 70%, Wet Wipe

Item number	Dimensions	pH value (conc.)	Pcs per pk / pk per cll
150514		4-8	40 / 6

Wet Wipe Ethanol Disinfection 70%, Maxi Blue is disposable wipes for disinfection processes and for pre-cleaning of instruments. Wet Wipe Ethanol Disinfection 70%, Mini Blue rolls are approved by the Food Authority (J.nr: 2014-29-7105-00025). Rinse with water is not necessary after using the wipe. The disinfectant completely disappears from the surface in a few minutes. The disposable wipes are blue and therefore easy to locate in case they get misplaced.

Wet Wipe

Item number	Dimensions	Size	pH value (conc.)	Pcs per pk / pk per cll
160529	43x30cm	Maxi	4,6-5,2	20 / 12
160534	 30x20cm	Mini	8	25 / 20

Ready-mixed product that saves time and ensures a uniform mixing ratio every time. No lifting, mixing and emptying of buckets of water and soap. No discharge into drains and treatment plants. Eliminate washing and drying costs. Clean all water-tolerant surfaces. Wet Wipe Universal disposable wipes is a safe way to avoid spread of bacteria. Use one wipe per patient in hospitals and care institutions to cut off infection routes, e.g. when cleaning equipment and furniture around patients in hospitals. Also well suited for cleaning other hospital and care institution equipment.

Keep wipes in a well-ventilated, heat-protected area. Dispose of as ordinary

Hand Creams

Skincare Ointment, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / cll per pll
6659	No colorant or perfume	150 ml	5-6	12 / 252

ABENA's Skincare Ointment with 41% lipids is ideal for very dry and irritated skin. A series of tests have shown that the composition of ingredients helps maintain the skin's natural moisture balance for up to 24 hours. The ointment also creates a protective barrier, which improves the skin's structure and helps to improve the skin. Our unique skincare ointment contains both dimethicone and allantoin, which is the perfect combination for an ideal good all-round ointment. The ointment does not contain any colorant or perfume.

Intensive Care Cream, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / cll per pll
6970	No colorant or perfume, 70% lipids	200 ml	4-5	12 / 120 pcs per cll / cll per pll
6966	No colorant or perfume cream, 70% lipids	100 ml	4-5	100 / 12 ml per pcs / pcs per cll

ABENA's Intensive Care Cream is specially developed for the care of very dry and irritated skin. The high lipid content (70%) creates a natural barrier without leaving the skin feeling greasy. The barrier effect lasts up to 5 hours, making it extremely suitable for severe skin irritations. Note that the cream does not impact the effect of chlorhexidine found in disinfection products. ABENA's Intensive Care Cream does not contain either any colorants or perfume, and can be applied to both body and face, as well as hands and feet. Making it a great all-round cream for the whole family.

Hand Cream, ABENA

Item number	Features	Volume, net	pH value (conc.)	Pcs per cll / cll per pll
150364	No colorant or perfume, 35% lipids	100 ml	5-6	6 / 504
6962	No colorant or perfume, 21% lipids	75 ml	5-6	12 / 250

ABENA's Hand Cream is a mild, nourishing cream that absorbs quickly into the skin. The hand cream has a high content of vegetable oils, which nourishes without feeling greasy. The glycerin content maintains the skin's moisture balance. The hand cream is suitable for all skin types and can be used daily. Our hand cream is available with 21% and 35% lipids respectively. Both variants are without perfume.

Did you know?

In our assortment, you can find adhesive band-aids with a built-in metal surface that can be detected by a metal detector, particularly suited to prevent contamination in the food industry.

Detectable Products

– avoid expensive recalls

Secure your business, employees, and customers.

ABENA's selection of detectable products gives you peace of mind that your business, employees, and customers are well-protected.

Detectable products safeguard your production against physical contaminants that may cause expensive damage to equipment or employees and your brand's reputation. Through metal detection or X-ray, the detectable products help eliminate and protect against this risk.

Detectable and durable

Detectable products, such as fully detectable pens and other equipment, are manufactured with a detectable additive suitable for food contact throughout. This offers you the best in detectability without compromising on durability.

Our assortment is built with resilient and user-friendly products, for example, shatterproof and ergonomic detectable pens that ensure a firm grip in a wide range of environments.
